DETAILED ACTION

Drawings

1. Figures 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1,2 are rejected under 35 U.S.C. 102(b) as being anticipated by Ling 4,803,856. Ling teaches two mating housing halves 1,2 wherein one of the halves 1 has a numeral wheel opening 16 extending from a lateral surface 111 to a front surface but not crossing the mating edge of the halves.

Allowable Subject Matter

4. Claims 3,4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art of record fails to teach two symmetrical mating halves each having numeral wheels extending from the front surface to the lateral surface thereof.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the corner wheel portion of Yu 6,470,717, Sage 986,595, Paddock 859,614.
